

Bite Size Learning

For the closed cardboard viewer:

- Look through the viewer
- What do you see? Where are you?
- Think about the x, y, z axis - Where is it?
- How does it feel compared to a 2D picture?

For the open cardboard viewer:

- Download the NYTimes VR app on your device

- Scroll and find a story to watch
- Select "Stream"
- Choose "Google Cardboard"
- Place the phone in the viewer and watch

Think about:

How does 3D perspective help tell the story or give a sense of a place?
What story would you tell or picture would you take in 3D? Share with us.
